Enclosure No. Nil

Sir,

In acknowledging the receipt of your No. 359 dated 2nd instant forwarding for information a copy of docket No. 544 O.A.8 of the 26th July last, received from the Comptroller of Mysore, re- the Ledger and Balance statements requested by me, I have the honor —to

to bring to your kind notice that it is a fact that these two were prepared by the auditors with the help of the Regimental books but after a labour of more than one year. Of course these statements form the information what several books the Contents of which I very urgently in need of specially the tabular Statements are very badly wanted, as they clearly point out the differences and omission made in the Cash books, when Compare with that of the entries made by the Regimental writer himself in his pay note books and papers as well as in the khazana book kept by the Dafada

It is my change to observe that nearly all the entries made in these two pay books tally, whereas the Cash books differ from these in many items Such being the case the tabular statement requested for would help a great deal to check and ascertain which of the entries

entries made in the Cash books are correct.

Therefore before Commencing the preparations of the proposed Ledger it is very essential to have all the items of Cash books that differ from the rough books checked and noted as far as possible by other references available without which the present attempt of getting it prepared, would be quite useless, seeing that it has been found in several instances that debits & credits entered in Cash Books are wrong.

In Case of trying to get the Tabular Statements of 3 years newly prepared independent of those that have already been prepared in the interest of the Government money after so much

Labour

labour and waste of time means double the work.

Which requires two more extra hands for one year or so to perform this work only.

Under these circumstances I request you to kindly ask the Comptroller at least to furnish with only tabular statements the same will be returned to him within a month or so after making rules of only those items that differ each other.

In case of the Comptroller refusing to comply with this request also I beg to inform that the Ledger proposed by me cannot be

be prepared unless two extra temporary hands, referred to above, on a reasonable salary are sanctioned and appointed for this purpose only.

If the tabular statements are furnished I shall make my own arrangements and get the Ledger prepared within three or four months and submit the same for information, and orders.
